

Science Beyond Boundaries 2

International Academic Conference
Faculty of Philosophy,
University of Priština with temporary head office in Kosovska Mitrovica

Kosovska Mitrovica, September 21-22, 2018
sbb.ffkm@pr.ac.rs

Faculty of Philosophy, University of Priština with temporary head office in Kosovska Mitrovica, organizes an interdisciplinary academic conference entitled *Science Beyond Boundaries 2* in a friendly and inspiring venue for academics and researchers to meet, present their research, discuss results, and network with a view of further collaboration.

The first conference *Science Beyond Boundaries* in 2017 proved that the promotion of interdisciplinarity in research practice improves the quality of networking, as well as caring and sharing in the academic community. The interdisciplinary approach, as a common ground for the presentation of research results in the field of linguistics, literature, history, history of art, psychology, sociology, pedagogy, and others, emphasizes the need for expanding the collaboration and stepping out of the confines of traditional science. Therefore, innovation and interdisciplinarity in research provide an unparalleled opportunity for overcoming obstacles and rising to future challenges.

The participation in the Conference contributes to the promotion of science in Serbia and the affirmation of Kosovo and Metohija as its significant research center. Furthermore, the exchange of expertise in an international context helps place our scientific achievements and potentials on the world map.

Science Beyond Boundaries 2 continues to strive toward extending the boundaries of traditional structures and common research routines, as well as towards identifying significant prerequisites for innovation leading to successful cooperation and unexpected connections.

This academic conference is open to all academics and researchers interested in interdisciplinary challenges, unexpected connections and extended boundaries in the past, present, and the future. We cordially invite you to submit your original scientific papers based on recent discoveries or research in progress.

We expect most speakers to be from the following academic fields:

- Language
- Literature
- History
- History of art
- Philosophy
- Psychology
- Sociology
- Pedagogy

However, we welcome papers from other academic fields that resonate and relate to the ones already mentioned as we look forward to the opportunity to hear from all researchers interested in interdisciplinary approach, new connections and extended boundaries

We are pleased to announce our distinguished plenary speakers:

- Prof. Brent M. Davis, Azusa Pacific University, California, USA;
- Prof. Ismini Kriari, Panteion University, Athens, Greece;
- Prof. Sophia Butt, University of Birmingham, UK;
- Prof. David Landis, Montana State University, USA;
