Enabling Policy Guide for Higher Education Institutions

In order for a policy to be deemed **implementable** it needs to:

- clearly define the HEI's commitment to the policy area
- have an implementation plan
- be accompanied by policy instruments such as procedures, and clearly defined areas of responsibility

In order for a policy to be deemed **situated in practice** it needs to:

- be based on consultation
- have been tested at operational level
- facilitate innovation
- be routinely monitored and reviewed for effectiveness

In order for a policy to be deemed **reflective of the HEI's priorities** it needs to:

- be guided by the HEI's vision
- be in line with the HEI's strategic objectives
- allow the HEI to meet its legal obligations

Enabling policies are defined as those which are implementable, situated in practice and reflective of the priorities of the higher education institution

Teaching and Learning Enhancement

Drivers:

- Professional Development
- T&L within disciplines
- Enabling student success is everybody's business
- T&L in a digital world

Obstacles:

- Getting the senior management buy in
- Research vs. Teaching (lack of parity)
- Developing measurements and indicators to assess T&L

‘Measuring’

HEA Systems Performance Framework 2018-20;

- Implementation of the Professional Development Framework by HEIs
- Number of staff with “Digital Badges” for completed CPD by academic year
- Number of DELTA Awards
- Student success policy in place
- Digital Policy in place

Mission Based Performance Compacts/Institutional Dialogue

Strategic Priorities 2019-2021

1. The professional development of those who teach
2. Teaching and learning enhancement within disciplines
3. Teaching and learning in a digital world
4. Enabling student success
