International strategic institutional partnerships and the European Universities Initiative

Short selection of key results from the EUA survey

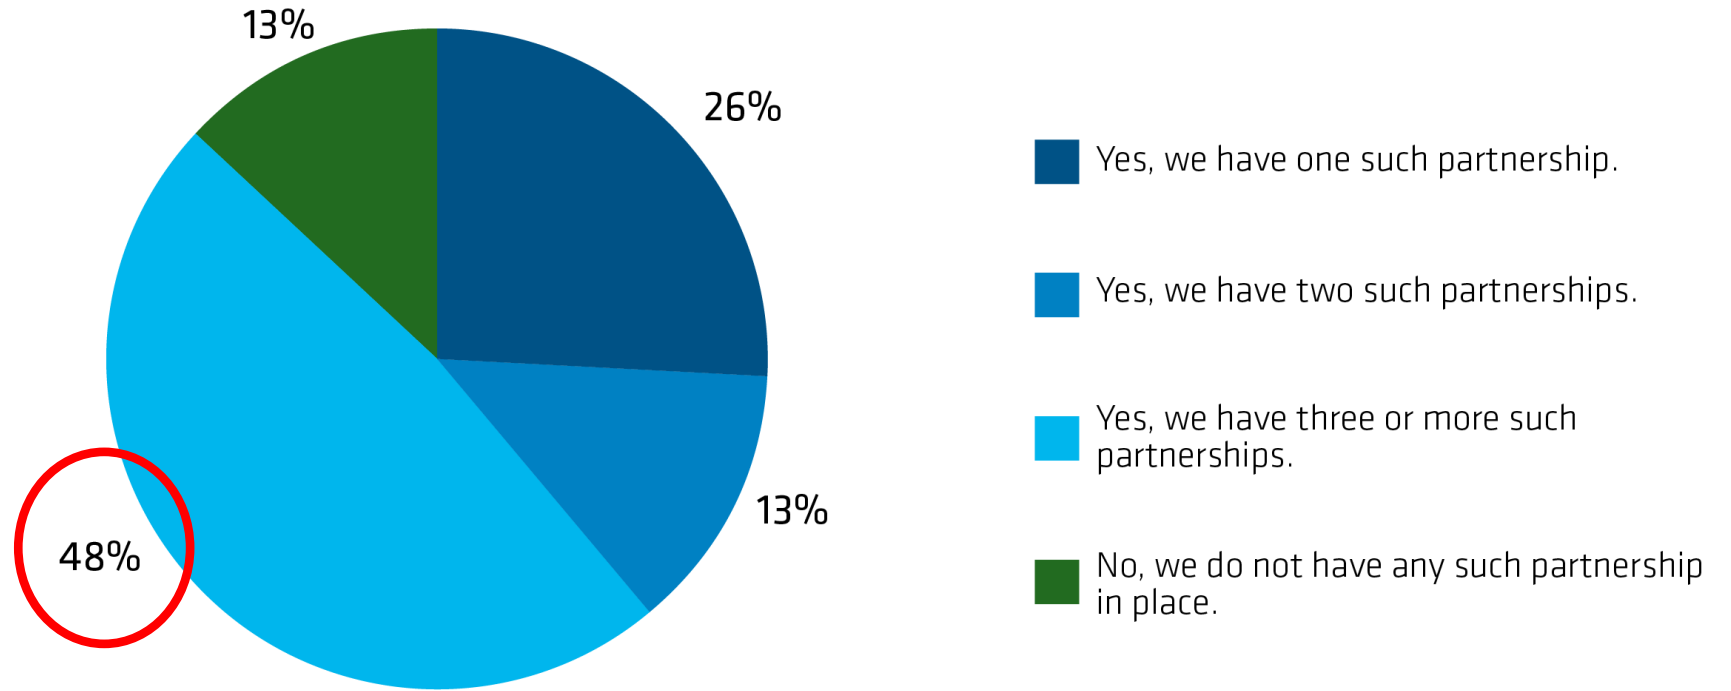

17 April 2020

EUA Annual Conference webinar

Strength in numbers – can university alliances change the game?

Many universities engage in a number of strategic institutional partnerships with partners abroad.

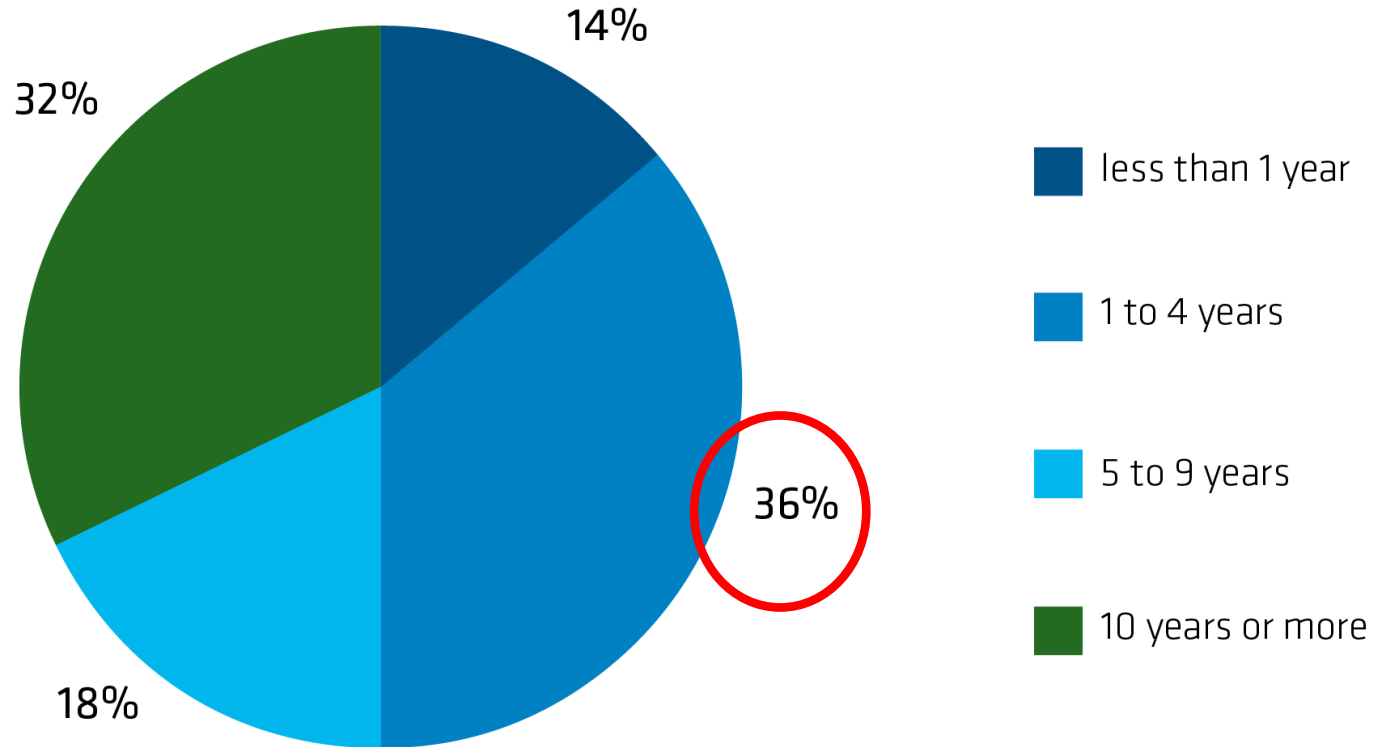

International strategic institutional partnerships

EUA Survey Q20: Do you have a strategic institutional partnership with higher education institutions abroad in place or under development?
N= 214

Many strategic institutional partnerships exist for a long time and new ones are set-up during the past few years.

Age of international strategic institutional partnerships

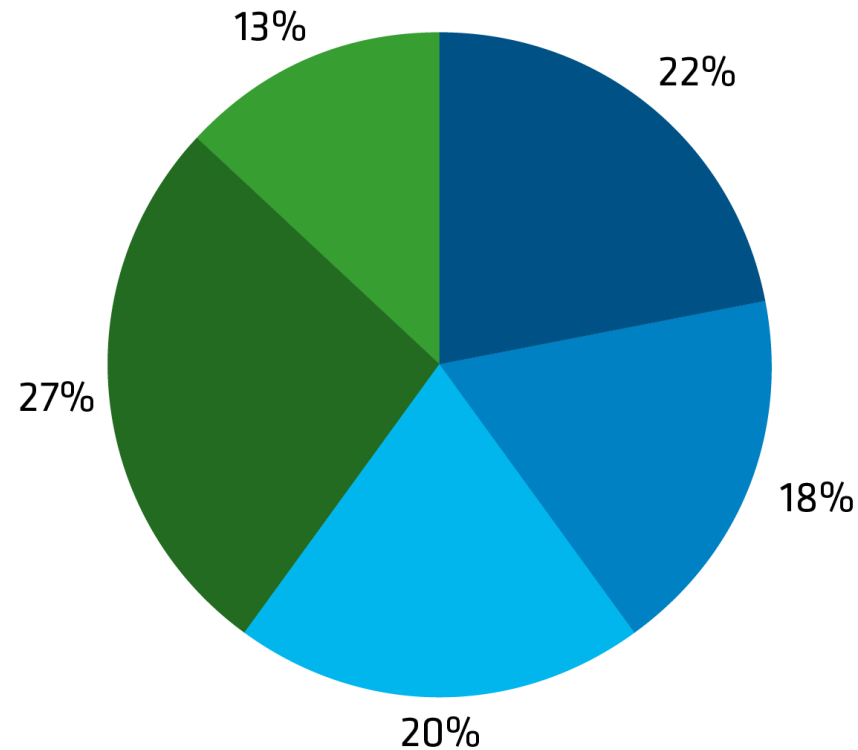

EUA Survey Q29ff: Since when does the partnership exist?

N*= 329

* number of partnerships described in the survey by 219 respondents

The European Universities Initiative has triggered great interest by universities.

Participation in the European Universities Initiative

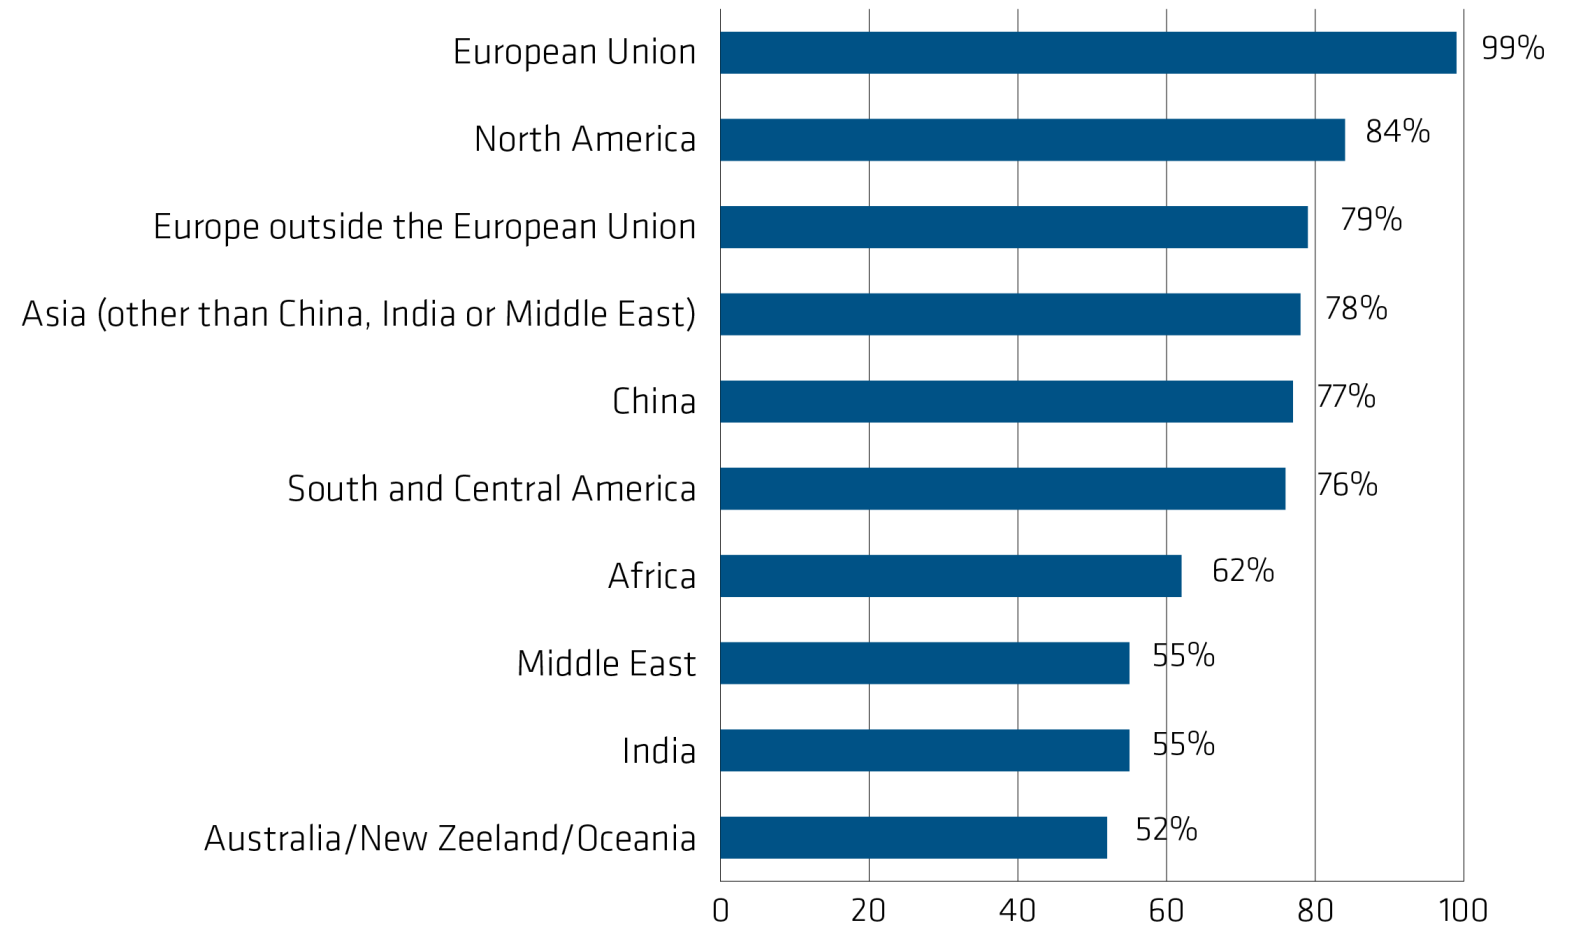

- Yes, my institution has been selected in the first pilot call.
- Yes, my institution has participated in a proposal during the first pilot call, was not selected, but participates again in the second pilot call.
- Yes, my institution is involved in a proposal under the second pilot call (but did not participate in the first call).
- Not yet, but we intend to participate in one of the next rounds under the new programme as of 2021.
- No, we are not participating and have no plans to do so for the moment.

EUA Survey Q87: Is your higher education institution participating in the European Universities Initiative?

Universities
work with
partners across
the world in
different ways.

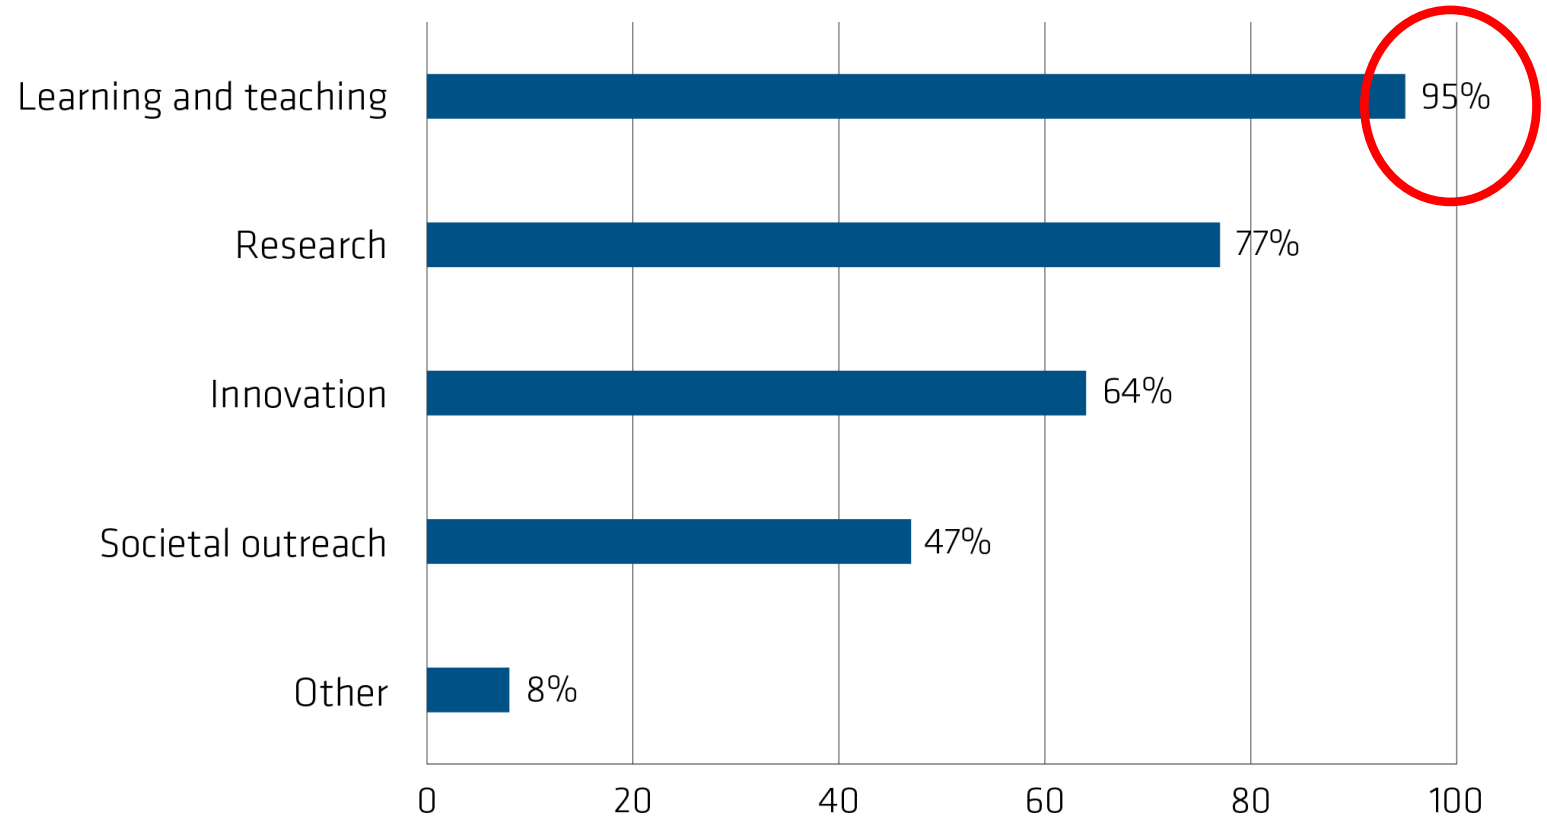

International partners' location

EUA Survey Q15: Where are your institution's partners located? Please tick all applicable.

Many partnerships encompass several university missions, with L&T being most often covered.

Areas covered by the partnership

EUA Survey Q26ff: Which area(s) does the partnership cover?
Please tick all applicable.

N* = 329

* number of partnerships described in the survey by 219 respondents
