2023 EUA Annual Conference

Hosted by Gdańsk University of Technology, Gdańsk, Poland

20-21 April 2023

Good to know

Language
English is the official language of the conference. No simultaneous interpretation will be provided.

Weather
The climate in Poland is continental with cold winters and warm summers. The location of Gdańsk on the Baltic Sea coast makes the climate slightly milder, but windy days are quite common. April is the middle of spring season with predominantly sunny days and daily temperatures fluctuating between 8°C and 17°C. For more details about the weather, please click here.

Emergency telephone numbers
Please dial 112 for Fire, Police and Ambulance.

Twitter
If you would like to tweet about the event or follow the discussions on Twitter, look out for our hashtag: *#EUA2023Gdansk*.

Photography
Please note that photos will be taken during the event and may be used for publications and websites, both by EUA and Gdańsk University of Technology. Should you be opposed to your picture being used as described, please contact the organisers on-site.

Currency and banking
The currency in Poland is Zloty (PLN). Currency exchange facilities can easily be found in shopping centres and the city centre (e.g. Old Town). Some fuel stations and souvenir shops may accept EUR, but this way of paying is not recommended due to unfavourable exchange rates. Cashpoints are often accessible 24/7 and they can be found all over the city and near the Gdańsk Tech campus. Most shops and payment terminals (e.g. ticket machines) accept Visa and Mastercard credit cards, which are a preferred option for payment following the Covid-19 pandemic.

Voltage
Electricity in Poland is supplied at 230 volts.

Gdańsk Tourist Information
For more information on tourism you can consult the Visit Gdańsk website or Explore Gdańsk website. Please note that the representatives of Gdańsk Tourist Organisation will be happy to provide you with all information you may need at the airport and during the conference.
