Improvement-oriented institutional evaluations

Evaluations guided by 4 key questions

What is the institution trying to do?

How is the institution trying to do it?

How does it know that it works?

How does the institution change in order to improve?

Initial evaluation

*Choose this type of evaluation if this is your institution's first experience with IEP
or
if more than three years have passed since your previous evaluation*

on internationalisation

Your institution can also opt for an initial evaluation with a special focus

or

**on management of research
and use of research results**

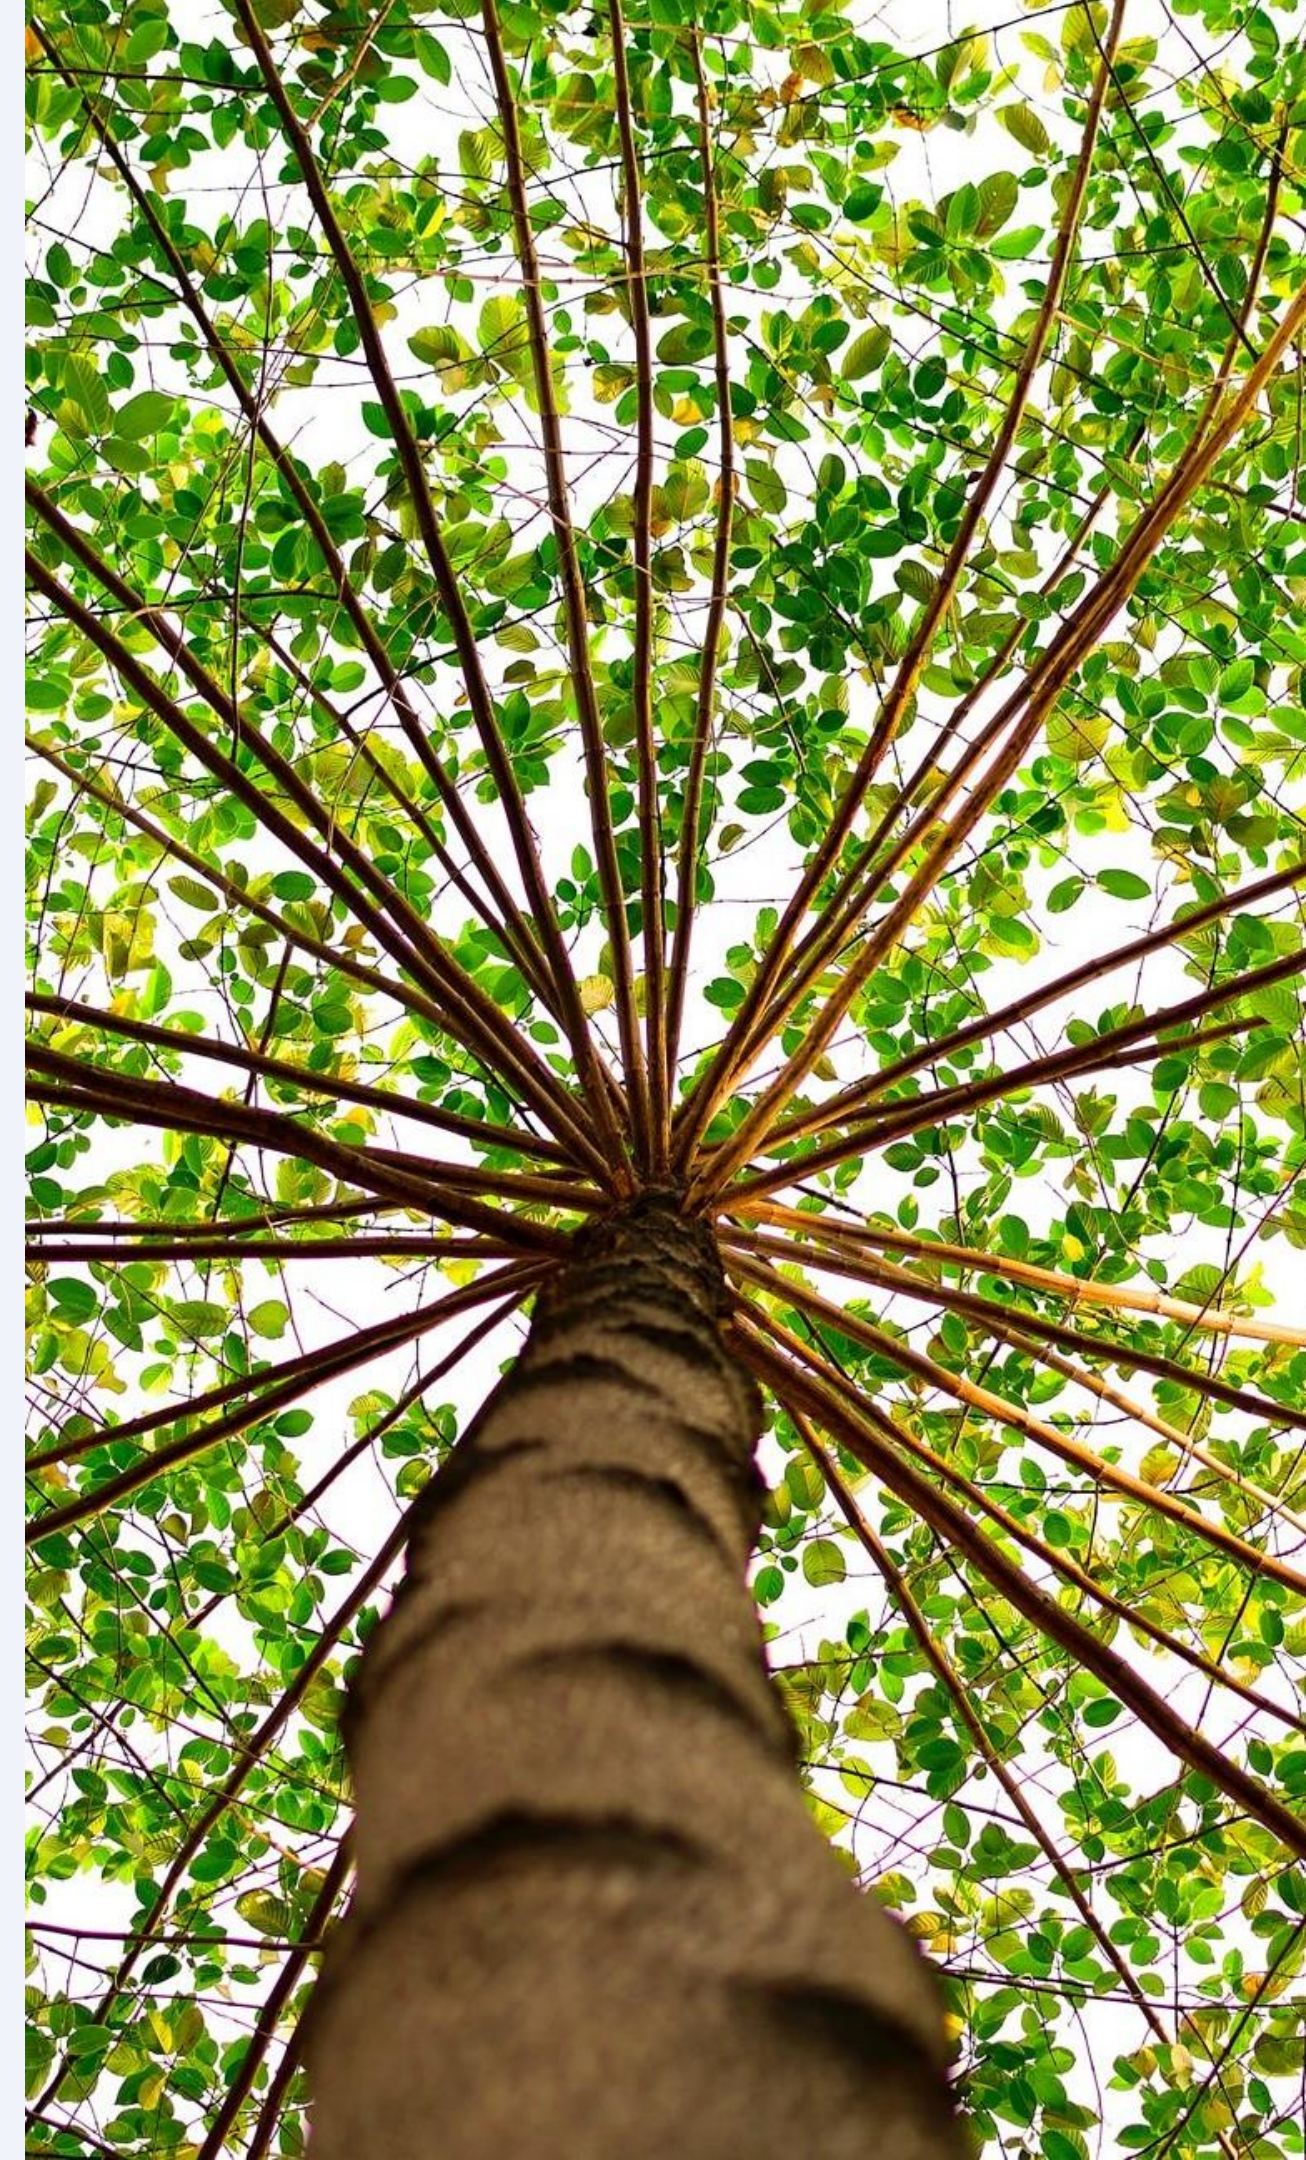

Follow-up evaluation

Choose this type of evaluation if your institution wants to identify the impact of the initial evaluation

Coordinated evaluations

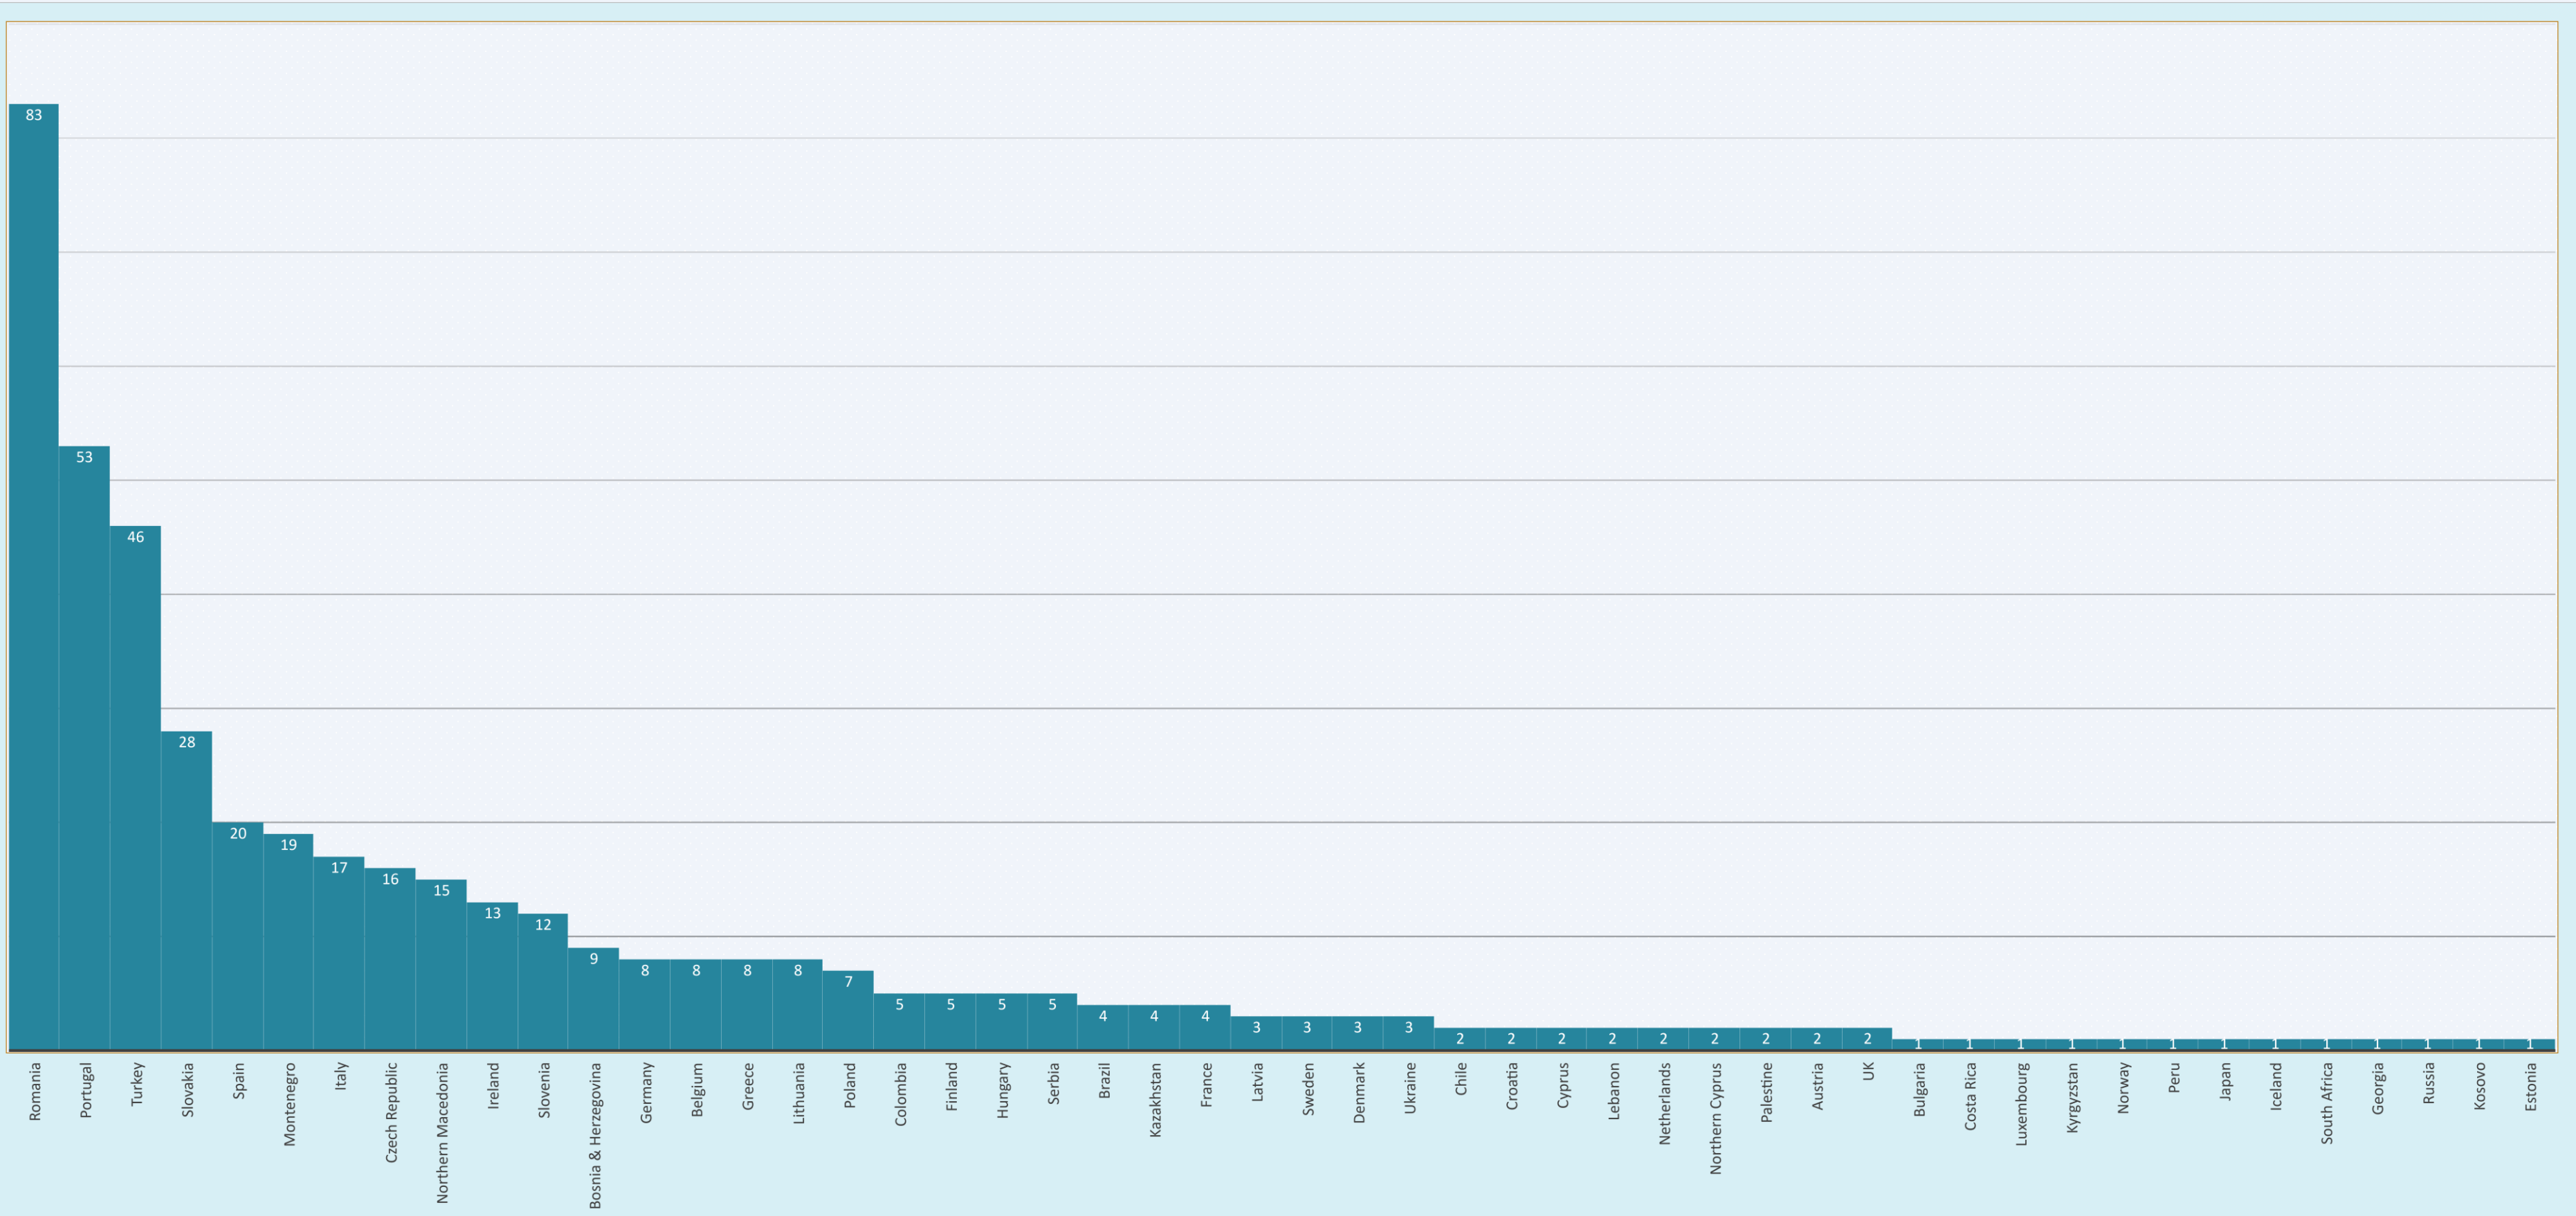

Choose this type of evaluation together with your national or regional authorities if you want an evaluation of your institution and a holistic analysis of the higher education institutions in your region

IEP evaluation steps

IEP worldwide

*Number of IEP evaluations per country
