Training the trainers: Data Management and FAIR data principles in university curricula

In the context of the FAIRsFAIR project, EUA and the University of Amsterdam are organising a workshop on "<u>Training the trainers: Data management and FAIR data principles in university curricula</u>". The event will take place online on 15 September at 10:00 CEST.

The workshop will address the needs and challenges encountered by teachers and trainers of research data management (RDM) and FAIR principles in higher education institutions, providing a platform for discussion and mutual learning.

Partners of the <u>FAIRsFAIR project</u> will present the main recommendations from the "FAIR Competence Framework for Higher Education", related to defining the body of knowledge, learning outcomes and learning units for FAIR data education in university curricula. The project will also provide information on the ongoing development of the "FAIR Adoption Handbook for Universities" (working title) to support practical curricula and course design.

Agenda

- Welcome
 - o Bregt Saenen, FAIRsFAIR and European University Association
- FAIR data principle and Data Stewardship in academic curricula: perspectives from the FAIRsFAIR project
 - Presentation of the "FAIR Competence Framework for Higher Education" and Data Stewardship Body of Knowledge
 - Yuri Demchenko, FAIRsFAIR and University of Amsterdam
 - O Lessons learned from the FAIRsFAIR Data Steward instructor training series
 - Hugh Shanahan, FAIRsFAIR and University of London
- EOSC Association Task Force on Data stewardship curricula and career paths
 - o Ilire Hasani-Mavriqi, Graz University of Technology
 - o Francesca Frontini, ILC CNR
- Meeting the needs and challenges of RDM and FAIR data trainers
 - Breakout rooms on (building) best practices for universities
- Wrap-up

The event is open to anyone interested in the topic and is free of charge. Participants will have the opportunity to share their views and experiences and learn from universities across Europe through presentations on good practices in RDM and FAIR data training.

Registrations will remain open until the day of the event on the FAIRsFAIR website.
